ACUITY - Battery condition monitoring system

All our propulsion Systems can be enhanced with a “state of art” battery condition monitoring system. ACUITY constantly measures and logs the precise condition of your battery. This detailed information will be displayed on your display, including the multifunctional displays from Raymarine. Also the historic data can be downloaded to a PC with a USB interface. Acuity requires special motor controller software. Only available for lead acid battery technology.

Acuity accurate battery management

PRODUCT CODE	MODEL	
101466	Acuity 24–48 VDC	Standalone unit
101542	Acuity 72–144 VDC	Standalone unit
101559	Acuity USB Interface + Software	Configuration and monitoring PLC software and interface

Option kits

PRODUCT CODE	DESCRIPTION
101640	Regeneration / during sailing Includes custom cable set and motorcontroller setup
100332	Help and Configuration on Distance interface: Diagnose or configure your Bellmarine system on distance: USB / PLC interface OEM 1314k-4401 v4.3.3 pc program station.
BVTE3281E	NMEA2000 configuration kit Includes display TF Easy for diagnostic + Software
